SPS requests that the Commission approve an overall increase in annual base rate revenues of \$141,284,640 which represents an increase of 25.5% in base rate revenues (the portion of the bill not including fuel costs and rate riders) and an increase of 6.5% in overall adjusted revenues. The effect of the proposed rate change on individual customer classes is set forth in the section entitled "Effect on Customer Classes" below.

SPS's proposed effective date is for this rate change is 35 days after the date of this filing, which is September 12, 2019. That proposed effective date is subject to suspension and extension by actions of the Commission or other regulatory authorities. As part of this request, SPS requests that the final rates set in this case be applied to usage on and after the Temporary Rate Date.
