**RE: Project No. 36141 Performance Measures for Retail Electric Market  
PUC Substantive Rule 25.88**

Please accept the Performance Measures for Retail Electric Market Report for the first quarter 2020, prepared by MidAmerican Energy Services, LLC ("MidAmerican Energy Services") for filing in the above-referenced proceeding. As specified in the rules, the measures required for Retail Electric Providers ("REPs") are:

- Measure A-1 Customers served by REPs
- Measure C Technical Field Performance

MidAmerican Energy Services was certified to do business as a REP in the third quarter of 2015, however it served no customers in Texas until the first quarter of 2016. MidAmerican Energy Services is submitting confidentially, under Procedural Rule 22.71, the information required in the two measures set forth above. Please note, that in connection to Measure A-1, which requires both paper and electronic filing of Department of Energy EIA Form 826 reports, MidAmerican Energy Services has submitted only paper copies of these reports because it considers these reports to constitute confidential information.

Procedural Rule 22.71 provides that a party shall not file confidential materials electronically unless specific arrangements are made and agreed to by the parties involved on a case-by-case basis. MidAmerican Energy Services is unaware of any such arrangements having been made. Accordingly, MidAmerican Energy Services is not filing the EIA Form 826 reports electronically at this time. However, should Staff desire to review electronic copies of these reports, MidAmerican Energy Services will discuss appropriate arrangements for filing such materials in consideration of this rule.
