PUBLIC UTILITY COMMISSION
OF TEXAS

**ORDER NO. 1
REQUIRING INFORMATION FROM APPLICANT AND RECOMMENDATION
FROM STAFF ON SUFFICIENCY OF APPLICATION AND NOTICE;
ADDRESSING OTHER PROCEDURAL MATTERS**

I. Application

This Order addresses the April 13, 2020, application of AEP Texas Inc. to amend its certificate of convenience and necessity (CCN) for the Angstrom to SDI Buffalo double circuit 345-kilovolt transmission line in San Patricio County.

The total estimated cost of construction is \$4,351,000. The proposed transmission line will be approximately 0.86 miles in length.

Under 16 Texas Administrative Code (TAC) § 25.101(b), the Commission must render a decision approving or denying an application for a CCN within one year of the date of filing a complete application for such certificate.

II. Notice

AEP must give notice of its intent to secure a CCN as required by 16 Texas Administrative Code (TAC) § 22.52(a).

In this proceeding, the intervention deadline is **May 28, 2020** (45 days after the filing of the formal application with the Commission). The deadline for intervenors to request a hearing on the merits is **May 28, 2020**.

AEP must provide proof of notice by mail by filing an affidavit listing the names and addresses of the entities notified by mail and the date the notice was mailed to these entities. A

copy of the letter and map sent to the entities must be included. AEP must provide proof of publication by filing a publisher's affidavit specifying each county where the newspaper is of general circulation. AEP filed proof of notice on May 1, 2020.

By copy of this Order, the Office of Public Utility Counsel is notified of this proceeding.

III. Texas Parks and Wildlife

In 2009, the Texas Legislature amended the Texas Parks and Wildlife Code to require that an agency with statewide jurisdiction respond in writing to each recommendation or informational comment made by the Texas Parks and Wildlife Department (TPWD) under § 12.0011(c).¹ The Commission's statutory duty to respond in writing applies to all TPWD recommendations and informational comments made on or after September 1, 2009. Accordingly, the Commission will include an issue to be addressed in its orders related to TPWD's recommendations and comments. AEP is required to provide a copy of the application to TPWD within seven days of filing the application.

IV. Alternatives to Project

The Commission requests that the following issues be addressed in all CCN dockets:

1. Has the Electric Reliability Council of Texas (ERCOT) recommended the proposed transmission project as necessary to alleviate "existing and potential transmission and distribution constraints and system needs within ERCOT" in the annual report filed under PURA² § 39.155(b)? If not, is there a need for the proposed transmission project?
2. If such a need exists, is the proposed transmission project the best option to meet the need, based on an analysis taking into account considerations of efficiency, reliability, costs, and benefits?
3. For utilities subject to the unbundling requirements of PURA § 39.051, is the proposed transmission project the best option when compared to employing distribution facilities to meet the specified need?
4. For utilities not subject to the unbundling requirements of PURA § 39.051, is the proposed transmission project the best option when compared to employing

¹ Tex. Parks & Wild. Code § 12.0011(c).

² Public Utility Regulatory Act, Tex. Util. Code §§ 11.001–66.016.

distribution facilities, distributed generation, and/or energy efficiency to meet the specified need?

AEP is required to file responses to the above issues by **May 19, 2020**.

V. Recommendation on Deficiencies, Notice, and Procedural Schedule

For good cause related to the date of entry of this Order, the administrative law judge sets the deadline for filing a motion to find the application materially deficient as **June 4, 2020**. Therefore, by **May 28, 2020**, Commission Staff must review the application and file recommendations or comments on the following:

1. Any deficiencies in the application;
2. Compliance with notice requirements; and
3. A proposed procedural schedule.

Any other party may file recommendations or comments on these issues subject to the same deadline. AEP must file any reply to the recommendations or comments on these issues by **June 1, 2020**.

VI. Other Procedural Matters

Any proper motion for intervention will be granted unless an objection is filed within five working days from the date of receipt of the motion to intervene. Responses to the objections to intervene must be filed within three working days from the date of receipt of the objection. Rulings will be based upon the written pleadings unless it is determined that a prehearing conference is necessary.

Persons who have filed motions to intervene have all the rights and obligations of a party pending the presiding officer's ruling on the motion to intervene.

Discovery may proceed informally; however, objections to requests for information (RFIs) must be filed and served within ten days of receiving the RFI. Objections must include a statement that negotiations were conducted diligently and in good faith. If the parties are unable to resolve a discovery dispute, a motion to compel a response to an RFI must be filed and served within five

working days of receipt of an objection. The motion to compel must specify the grounds for the motion.

Service of pleadings is typically governed by 16 TAC § 22.74. However, the Commission has issued an Order Suspending Rules,³ which has suspended the service requirements found in 16 TAC § 22.74. As long as the Order Suspending Rules remains in effect, all parties must file any pleading or document with the Commission solely through the Interchange on the Commission's website and provide notice, by email, to all other parties that the pleading or document has been filed with the Commission, unless otherwise ordered by the presiding officer. It will be incumbent upon all other parties to obtain a copy of the pleading or document by accessing the Interchange.

Unless otherwise specified, responses or replies to any motion or other pleading must be filed within five working days after the date on which the motion or other pleading was received by the responding party. Failure to file a timely response will be considered acquiescence to the relief requested.

All parties must provide their current address, **e-mail address**, telephone and fax numbers, if available, to all other parties and the Commission by filing and serving all parties with such information. Each party must provide the Commission and all parties with updated address, **e-mail address**, telephone, and fax information if such information changes. The **e-mail addresses**, telephone and fax numbers will be placed on the service list for the convenience of the parties. Parties are responsible for updating their own service lists to reflect changed information and the addition of any other parties.

Questions concerning this Order or any other order must be submitted in writing, filed with the Commission, and served on all parties of record.

³ *Issues Related to the State of Disaster for the Coronavirus Disease*, Docket No. 50664, Order Suspending Rules (March 16, 2020).

Signed at Austin, Texas the 14th day of May 2020.
