METERING SERVICE FEES §**

**PUBLIC UTILITY COMMISSION
OF TEXAS**

**COMPLIANCE REPORT OF ENTERGY TEXAS, INC. PURSUANT TO THE
COMMISSION'S ORDER ISSUED IN DOCKET NO. 47416**

TO THE HONORABLE PUBLIC UTILITY COMMISSION OF TEXAS:

Entergy Texas, Inc. ("ETI") files this compliance report as required by the Public Utility Commission of Texas (Commission) in Docket No. 47416 and respectfully shows the following:

I. DESIGNATED REPRESENTATIVES

For purposes of this filing, ETI's designated representative is:

Rich Lain
Manager, Regulatory Affairs
Entergy Texas, Inc.
919 Congress Avenue, Suite 740
Austin, Texas 78701
(512) 487-3975
(512) 487-3958 (Fax)
rlain1@entergy.com

II. BACKGROUND AND REASON FOR FILING

On July 18, 2017, ETI filed a request for approval of its Advanced Metering Service (AMS) deployment plan and request for AMS surcharge. In its Deployment Plan (Attachment A to ETI's Application), ETI stated that it would begin filing a monthly status report meeting the requirements of 16 TAC 25.130(d)(9) (the Advanced Metering Rule) in February 2019.¹ The Commission

¹ *Application of Entergy Texas, Inc. for Approval of Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, And Non-Standard Metering Service Fees*, Docket No. 47416, (Attachment A) at 6 (Dec. 14, 2017).

approved ETI's Deployment Plan in its Final Order dated December 14, 2017, consistent with a settlement agreement filed on October 17, 2017.² This compliance report covers the period ending April 30, 2020 and meets the requirements of the Advanced Metering Rule.³

III. REPORT

- (1) Number of advanced meters installed with geographic identification.

Report: See attached.

- (2) A description of significant delays or deviation from the Deployment Plan and reasons for delay or deviation.

Report: None.

- (3) A description of significant problems experienced with the AMS, with an explanation of how the problems are being addressed.

Report: The remote disconnect/reconnect feature of the installed AMS meters was temporarily disabled to resolve a technical issue. Following successful testing of a solution on a small portion of AMS meters, remote disconnect/reconnect functionality is currently being incrementally re-activated for larger portions of the installed AMS meters. In addition, with the support of its regulators, due to the impact of COVID-19 on customers, ETI ceased all customer disconnections on March 14, 2020.

- (4) Number of advanced meters that have been replaced as a result of problems with the AMS, if any.

Report: 210

- (5) Status of deployment of features identified in the AMS deployment plan and any changes in deployment of these features.

Report: None.

² *Id.*

³ 16 TAC § 25.130(d)(9). ETI received a waiver from compliance with certain requirements in 16 TAC § 25.130 that involve retail electric providers (REPs) and are only applicable in a deregulated retail electric market in which REPs provide retail electric service to customers and/or are specific to the Electric Reliability Council of Texas (ERCOT) markets and its protocols. (See Docket No. 47416 Final Order at Finding of Fact 28; Ordering Paragraph 4.) For example, 16 TAC § 25.130(d)(9)(A) requires providing a report of the number of meters installed, listed by ESI ID. ETI's service area does not utilize ESI IDs, as that is a feature unique to ERCOT.

Dated: May 14, 2020

Respectfully submitted,

George Hoyt
