RE: Project No. 50794, Application of Nia Power, LLC for a Power Generation Company Registration

### **RECOMMENDATION**

On April 29, 2020, Nia Power, LLC (Nia Power) filed an application to register as a new power generation company (PGC) pursuant to 16 Texas Administrative Code (TAC) § 25.109. The facilities being registered as a PGC are Sulphur Springs Solar Farm 2, SLPS Irving, Corriene Advisors, Crescent Ridge, Amerigold, Sulphur Springs Solar Farm 1, and BAPS.

After a review of the Nia Power registration request, Staff has concluded that the applicant has satisfactorily completed the registration requirements under 16 TAC § 25.109(e) by providing a description of the location of the facility used to generate electricity; a description of the types of services provided by the person that pertain to the generation of electricity; and all information requested on the commission-prescribed form. An oath or affirmation signed by an owner, partner, or officer of the registering party was included with the application pursuant to 16 TAC § 25.109(f).

Therefore, Staff recommends that Nia Powers' registration request be granted, and commission records be revised to reflect the registration.
