DATE: May 13, 2020

RE: May 14, 2020 Open Meeting – Item No. 15
Project No. 49819 – *Rulemaking Relating to Cybersecurity Monitor*

I commend Commission Staff for their work on this. I propose one change to clarify the Cybersecurity Monitor's administrative reporting procedures found starting on page 26, line 19:

(k) Communication between the Cybersecurity Monitor and the commission.

- (1) The personnel of the cybersecurity monitor may communicate with the commission and commission staff on any matter without restriction consistent with confidentiality requirements.
- (2) The cybersecurity monitor must:
 - (A) immediately report directly to the commission and commission staff any cybersecurity concerns that the cybersecurity monitor believes would pose a threat to continuous and adequate electric service or create an immediate danger to the public safety, and, ~~as soon as practicable,~~ notify the affected utility or utilities of the information reported to the commission or commission staff;

I look forward to discussing this matter with you at the open meeting.
